But if a student asked me my personal opinion, I'm going to be very honest. And I had a student once say, well, you know, I believe there's a bunch of gods and therefore people are gravitating to it because, again, witchcraft gives them a sense... paganism gives them a sense of power without conformity to self. And we see Beyoncé pushing that more and more, and she's really trying to target black people into embracing paganism.

And one of the really interesting things is that her husband, Jay-Z, is, many people have said, a Satanist. I believe it to be true. I don't have any hard proof, but just by bits of things like his song New York, which is a really popular song and is very catchy, I mean, the song that you like when you listen to it, it does sound, it sounds nice.

But here's the thing. One of his lyrics in his songs is "Jesus Can't Save You. Life starts when the church ends." He didn't just say that because it was rhythmic. He said it because he meant it.

People say, our greatest threat is China, our greatest threat is Satan at all costs. We need to bring Christ to China. Chinese people are not bad. Every Chinese person in the world didn't invent the Coronavirus. Every Chinese person in the world didn't bring Fentanyl over to America. Yes, there are people that are the head of the New World Order that are part of the CCP and a part of elite Zionist Jews. There are people who are involved in creating the fentanyl crisis in America, but it's Satan using them. We need to be very clear. Christ is king.

### **TikTok analysis of satanic celebrities**

(SHOWING the OKAY SYMBOL WITH THEIR HANDS)

The circle using the index and thumb with three extended fingers is a satanic demonic cabal symbol, meaning 666. The devil's number of signs. Anyone using it is signaling to other people devoted to serving Satan that they are working toward his failed goals of world domination. So yes, believe it or not, these artists are puppets and tools for Satan and are heavily involved in witchcraft and rituals in order to gain money, fame and power. They get paid to promote sin and indecency, to cause corruption in the world.

### **Matt Walsch, Anime is satanic in "The Daily Wire", conservative, american news founded by Ben Shapiro and Jeremy Boreing**

What's your opinion on anime? It's really popular amongst teens and young adults. I think it's all satanic. I have no argument for it. I have no argument for why it's satanic. It just seems that way to me. All anime, to me, seems weird. Just bizarre. Creepy.

### **Monster energy drink is a satanic drink**

There's a gap right here in the letter M. It's never connected. So if you're going to Hebrew, the letter of Vav is also the number six - short top, long tail short, top, long tail. You could have here, in Hebrew six, six, six on the can. But my interest is the word monster. What do you see in the O? There's a cross. What has Christ got to do with an energy drink, let alone the name Monster? So I thought, maybe this is a Christian company then. Now, do you know what a MILF is? Yes, That's on the box. MILFs dig it and you will too! - this is not a Christian company at all. So why would they have a cross on the can? Here is the message. The Antichrist.

### **Pitbull, an American rapper**

I'm not a religious man, but one of the stories out of the Bible, one of the most famous stories is what? Adam and Eve. What did Eve bite? She bit the apple. Look at the logo on your fucking phone. It's a bitten apple. So therefore, everybody is biting that bitch now.

### **Pokemon is evil by an american pastor**

There's a war going on right now, for the children, because Satan wants some really bad. Little Pikachu down here. He's crying his eyes out. He's not cute. And even Ash doesn't look cute anymore. Those energy balls represent that Pokemons get their power by supernatural occult ability. Abra Kadabra. The Kadabra character has a pentagram on his forehead and he has SSS across his chest. Satan's solemn servant. The Kadabra character is always pictured on the card with his left hand giving the satanic salute. Remember that the whole goal in all of these roleplaying games, and especially in Pokemon, is to become the master.

### **Kristina Karamo, American far-right wing politician, vol 2:**

All right, so next on the list for today, Cardi B, Cardi B, Wow. Whether she knows it or not, I have no clue. She is a tool of Lucifer. Cardi B is another tool of Lucifer, because she pedals filth in the culture and she peddles such filth and sexual degeneracy in our culture that many people are laughing at her and they're laughing because as we know, her and Megan Thee Stallion came out with this video called WAP or the song, and you already know what it stands for, so I'm not going to say, but it's very obscene. And so the premise of the video is that being a slut is empowerment and that when you're a slut, you can control men, you can manipulate men, get them to do whatever you want.

You know, Ariana Grande, she had a song called "God is a Woman". She had a song called "God is a Woman". This is what I'm talking about. Gotta be squeamish folks. Let's deal with the world we live in and let's fight back and we want to hide them like, oh, no, that's so great. Oh, you know, then you're not preparing your kids. She literally had a song called "God is a Woman". And at the MTV Video Awards, she.. Her performance involved recreating The Last Supper of Christ as a lesbian orgy. You heard me correctly. I don't need to repeat that. Then she had the Shiva, which is the Hindu goddess of death, above the supposedly lesbian orgy. That was the Last Supper. Just total blasphemy. Just total blasphemy. And then after it would entertain between Shiva, which was the Hindu goddess of death in a portal that was a vagina, because that's part of paganism. This female worship. And so that's the people who are entertaining your kids.

### **"Victims"of Travis Scott's concert**

It just felt like we was like literally, like in fucking hell, bro. Like, it felt like we were in a concert in hell. You couldn't breathe. You couldn't see, like, just imagine all the people they're going to find tonight, who were in that crowd, who nobody could see, who nobody could hear, who passed out. And everybody was troubling on top of them for the whole fucking concert. Like, by me alone, it was probably like ten fucking people laid out dead and like once the medics tried to help them, they wasn't responding, they moved to the next person. There was nothing they could do. Like, this is like this shit really fucked me up and it really spooked me tonight, that was like some demonic shit. And what was so crazy? Like people were screaming for help trying to tell Travis Scott and he was like, yeah, the whole crowd just was like help, help, help. He just kept going, bro. I mean, like, you know, like, stay away from that shit bro, That shit is not for you. Because, like, he sacrificed so many people's lives tonight. Like, for real, like so many people's lives. They're literally being sucked into that spiraling hole of death that was portrayed in front of us. We're all suffocating and dying. And on the screen it reads: See you on the other side; along with all the Illuminati symbols and the praying hands. Literally sucking our energy from us. I am 100% convinced that this was literally like an energy harvest. Like this was literally like a satanic ritual. Travis Scott was snatching souls, really snatching people's souls.

### **Alex Jones, an alt-right journalist and conspiracy theorist**

So there's drag. That was part of this whole thing. And while they're out there singing, you've got this demon burning and flying above them with a portal to hell. And now we learn the literature and the full page advertisements for this thing was: You're going to die.You're going to go to a portal to hell. Whether they believe that or not, they actually manifest it. Now we're learning more about people being drugged and all this other crazy stuff was going on. Travis Scott or if Dr Dre were involved, I've actually listened to both of them and really haven't heard about Satanism in their lyrics. Let's just say I'm not a huge fan but I'm familiar with, I like some of their songs, I mean it's on my player, on my phone, on my Spotify account. I listen to them quite a bit. But the people that set it up, the people that designed it, this way, the people that put out the promotional information absolutely were engaged in the occult. Absolutely were engaged in the ritual of satanism

### **Teletubbies according to a Twitter user**

Teletubbies is the most Haram show to have ever graced this earth, but no one is ready for this convo. It's a show that encourages kids to worship the baby sun (Shaytan), and in return they will be offered a place in teletubby-land, Jana.

### **Pokemon Go App according to a YouTuber, Robert Breaker**

Many have seen the new fad going around today called Pokemon Go all over the news. It's been talked about how there's this new video game that you can download on your phone and you can actually go around and find a little Pokemen, whatever those are. You know, I didn't pay much attention to it and didn't think much of it. But the more that this fad goes on, the more I think, you know, I need to mention this, I need to talk about this from my Christian perspective on what this so-called Pokemon fad really is, because it could be a very, very dangerous thing. And so I was looking into Pokemon. I don't know a lot about Pokemon, but I remember when Pokemon came out, I never liked the Japanese animation stuff. I wasn't into that, but when it came out I said, Wonder what that is? And I asked some people, and this was several years ago, and they said, Well, Pokemon is all about a person having a little friend who's a monster and he talks to that monster and he builds that monster up and makes him stronger.

And I thought, well, that doesn't sound very Christian, a person playing with a little monster, and I guess it's hatched from an egg or something. And they talk to it and they help it to win and battle and fight with it. And things like this. And from Christian, Christian perspective, my thought was, well, that sounds like witchcraft. You see, witchcraft is a person talking to demons, making deals with demons, and asking demons to do something for them through a contract.

And then they do something for the demon. And so it sounded like that to me and I always thought, well, that sounds like preparing kids for later times to where they learn witchcraft and talk to demons

### **Drain Gang and adrenochrome**

Is Drain Gang some code for adrenochrome rituals? A lot of their songs mention blood and materialism, but also ethereality. Bladee and his fans call him a drain vampire angel, so there's bound to be some connection.

### **Balenciaga is a BAAL cult**

It was literally put there for a reason. This photo, it kept getting back to this photo, right? Like I said, it looks seemingly innocent at face value, compared to the other ones.

Now, if you look down here in the bottom, sort of almost in the bottom left corner, you see two type roles. Okay. And if you look close up, you will notice that the tape roll is misspelled - rather than saying Balenciaga or at least those first five letters, it says B, A,A, L, and then followed by E and N, and you can only see the E and N right? Now, Bal, why, why would that be?

Like why would they deliberately have misspelled that? Could that be an accident? And I'll explain why. It definitely was not an accident. This wasn't an accident. This was, like I said, strategically bloody placed there. Now, if you research the definition of Bal - Bal is an ancient Canaanite god, so is like a pagan God. They believed that they sacrificed minors to this God, it was apparently their belief, like the pagan belief that children were to a God called Malik in the Old Testament. It's quite obvious that Bal is a pagan Canaanite ancient God who is quite sinister, quite evil, quite obviously, given all that context of it. That word Bal is on the tape.
